Statement of significance:

This tree fulfils the criteria of:

- Outstanding size (girth height spread)
- Aesthetic value
- An outstanding example of the species

This large young-mature River Red Gum is located along the edge of the carpark on the school grounds. It has outstanding size for height as it is one of the tallest trees in the vicinity. An indigenous species for the area, this well-formed tree is striking in the landscape, making a major contribution to the neighbourhood character and providing substantial amenity to the community.

As a healthy and well-formed, established specimen, this is considered to be an outstanding example of the species. Given its relatively young age for its kind, this tree has the potential to live for many years, benefiting the community for generations.
