

# Glen Eira Classified Tree Register

## TREE REPORT

**Tree number:** 107/CTR/2021

**Date of Assessment:** 26/05/2021

**Assessing Officer:** Christian Renaud

**Tree Owner:** Council Park Tree

**Address:** Booran Road Reserve

**Location:** Garden Open Space

**Record type:** Single Specimen Tree

**Number of trees:** 01

**Botanical name:** *Eucalyptus camaldulensis*

**Common name:** River Red Gum

**Structural Root Zone (SRZ):** 3.8m

**Approximate age:** 250+ years

**Diameter at breast height:** 126cm

**Tree Protection Zone (TPZ):** 15m

**Tree height:** 22m

**Tree canopy width:** 17m

**Easting:** 327527.3

**Northing:** 5804865.5

**Glen Eira Asset ID:** TP115778

### Statement of significance:

This tree fulfils the criteria of:

- Historical or Genetic Value
- Unique Location or Context
- Particularly Old Specimen
- Outstanding Size (girth height spread)
- Aesthetic value
- Outstanding Example of Species
- Outstanding Habitat and Biodiversity Value

This is a large & healthy example of a remnant indigenous species that could represent an important source of propagating stock. It provides a major contribution to the local landscape and is uniquely positioned within a dedicated feature garden along the boundary of Booran Road Reserve.

The tree has an estimated age range of 190 – 360 years, with a large impressive canopy and outstanding trunk girth over 4m in circumference. It is a well-formed example of the species with good foliage density that makes a substantial contribution to local amenity and the neighbourhood character. The tree is possibly the healthiest and most vigorous example of a remnant River Red Gum within Glen Eira and as an indigenous remnant tree, it is a vital resource for native wildlife.
