

Glen Eira Classified Tree Register

TREE REPORT

Classified Tree Register nomination number: 191/CTR/2021

Date of Assessment: 09/03/2022

Assessing Officer: Christian Renaud

Tree Owner: Private Trees

Address: 21 Omama Rd, Murrumbeena

Location: Private Open Space

Record type: Specimen Trees

Number of trees: 02

Botanical name: *Quercus robur*

Common name: English Oaks

Structural Root Zone (SRZ): 3.0m & 3.5m

Approximate age: 90+ years

Diameter at breast height: 69cm & 107cm

Tree Protection Zone (TPZ): 8.3m & 12.8m

Tree height: 18m & 20m

Tree canopy width: 13m & 20m

Co-ordinates: 330471.7 & 5804591.2; 330473.6 & 5804603.0

Glen Eira Asset ID's: N/A

Glen Eira Classified Tree Register

TREE REPORT

Statement of significance:

These trees fulfil the criteria of:

- Unique location or context
- Particularly Old Specimen,
- Aesthetic value,
- Outstanding example of the species

These 2 trees are large and healthy examples of English Oaks, with both located within a private garden that is covered by the existing Significant Landscape Overlay 1 within the Glen Eira Planning Scheme. They are located along the side boundary of the property alongside the historic Springthorpe Gardens which is the centrepiece of the original Omama estate subdivision of 1909.

Both trees are estimated at over 90 years of age, despite one tree having a smaller canopy size due to a more confined growing environment. This makes them both particularly old examples of a northern hemisphere species within the municipality. Both trees are highly visible to the public and they make a substantial contribution to the local landscape and neighbourhood character, especially in conjunction with other significant trees within the private property and neighbouring public gardens. They are both outstanding examples of the species given their age, health and aesthetics.
