

**Keep your  
recycling  
loose.**

# Items in bags can't be recycled.

When your recycling goes in the bin loose, it can be turned into new things like bottles and cans.

If you put bagged recycling into the bin, it can't be recycled. This means the hard work you put into sorting your recycling is wasted.

Never put your recycling inside plastic bags or garbage bags.

Try collecting your recycling in a tub or container instead of a bag. Empty the contents of the tub into your recycling bin so that all items go in separately.

Small acts like keeping your recycling loose, make a big impact.
